Principal’s foreword

Introduction

The Bwgcolman Community School Annual Report is a report on outcomes achieved in 2011 and a reflection on the journey we are taking. The report details the school’s journey and its progression towards its shared vision.

We continued with a heavy focus on curriculum and pedagogical exploration. The school is continuing its journey to develop a curriculum that meets the needs of our clients and is in a strong position to embrace pedagogical reform in 2012.

The School Annual Report contains:

- School Progress towards goals in 2011
- Future Outlook
- School Profile including Characteristics of the student body, class sizes and School Disciplinary Absences
- Curriculum Offerings- Distinctive/Extra Curricula/Use of ICTs
- School Climate
- Parent, student and teacher satisfaction with the school
- Involving parents in their child’s education
- Reducing the school’s environment footprint
- Staff composition, including Indigenous Staff
- Qualifications of Teachers
- Expenditure on and participation in Professional Development
- Average staff attendance- retention of staff
- School income broken down by funding source
- Key student Outcomes- attendance/ NAPLAN/ Closing The Gap
School progress towards its goals in 2011

The school took over the Senior Phase from Kirwan SHS in semester 2. Attendance levels improved during the course of the year. The school consulted with outside agencies to develop an Attendance Action Plan for Palm Island. Profiling of staff was undertaken after skilling the staff with ESCM. School-wide Positive Behaviour Support was embedded right throughout the school.

Future outlook

In 2012 the school became a low SES National Partnership School. A 4 year Strategic Plan was collaboratively developed and the school will be focussing increasing student attendance so that we make headway with literacy improvement.

The key areas in school improvement in 2012 will focus on;

- Student Attendance
- Student Connectedness
- Reading/writing
- Sustainable Structures

This will be actioned through the development of an Attendance Action Plan in conjunction with the Palm Island Council and the Department of Communities. The use of National Partnership funds will enhance the opportunity to be creative in this area.

The formation of streamed composite classes will be trialled in 2012 to enable explicit teaching in specific areas and levels of need.

The continuation of partnerships with the Australian Literacy and Numeracy Foundation to focus on literacy, the Australian Catholic University for RoleM (Maths) and Queensland University of Technology for Yumi Deadly Maths.

The re-introduction of Marine Studies in the Senior Phase and the introduction of an alternative program for disengaged youth (Step Up) is progress towards making the school a desirable place to attend.

Training of all staff in particular the indigenous staff, is part of progress towards developing sustainable programs and structures.

Pre-Prep begins in 2012 and this provides 15 hours a week of play based learning for children aged 3 ½ and older as part of the Commonwealth commitment to early childhood learning.

Curriculum offerings

Our distinctive curriculum offerings
Cultural Studies
Turtle Talk (Literacy)
Reef Guardian- Marine care
Vocational education- Engineering ( Cert I, II)
Elective Studies ( SAS) – Marine and Aquatic Practices, Visual Arts, Social Community and Indigenous Studies

Extra curricula activities
Cathy Freeman Netball Carnival
Obe Geia Challenge(Rugby League)
Year 7 Transition Tour
Years 9-12 Smart Futures For NQ ( SF4NQ)
Cathy Freeman Foundation Horizon Tours – Mt Buller/ Gold Coast
Vibe Alive
Laura Dance Festival
Week activities
Strike 57 Activities

How Information and Communication Technologies are used to assist learning
During late 2011 the secondary department received computers under the NCCSF scheme. These were then used to enable each secondary student access to ICTs at the same time.
Primary teachers began undertaking XO laptop training for the one laptop per child program. Data projectors were used in most classrooms for whole class access to the internet and both the secondary and primary computer labs were timetabled for maximum usage. ICTs were mostly used for word processing, some artwork and for research.

Social climate
Our school is a complex educational setting with a high staff turnover. Pastoral care programs require training of staff from year to year and many students are faced with the loss of a teacher they feel connected to over the course of a couple of years. This is problematic for us but our Indigenous Education assistants and Community Education Counsellors work very well in this area.
In our first year of operation as a P-12 ( from semester 2 onwards) , staff have been working with students to ensure that they are provided with a safe and supportive educational environment in which to work.
The school has a Responsible behaviour Plan for Students and this is followed in response to all complaints of bullying. Every incident is investigated and students are counselled if they involved in inappropriate behaviour towards others. Our school rules of Be Safe, Be Responsible and Be Respectful are constantly taught and reviews.
Parent, student and teacher satisfaction with the school

There was a mixed level of satisfaction in the school during 2011. There was a limited number of parents who were satisfied that their child was getting a good education despite over 8 out of 10 parents who indicated satisfaction with the school. Three quarters of the students felt they were getting a good education at the school as well. The staff indicated that they were not satisfied with the professional development opportunities and this was reflected in just under 7 out of 10 staff be satisfied with the morale in the school.

DW – Data withheld

Involving parents in their child’s education

Parents are involved through the home visits made by staff on a regular basis. Teachers meet with parents to discuss their aspirations for their child and to examine current progress. Suburb meetings did not occur during 2011 but will be re-instituted in 2012. Some parents gave their time to be involved in Cultural studies. The staff send home many certificates to keep parents informed of the positive aspects of their child’s education.

Parents are invited to all award ceremonies throughout the year and to all major school activities. Parent attendance at sporting and cultural events is quite high.
Reducing the school’s environmental footprint

Data is sourced from school’s annual utilities return and is reliant on the accuracy of these returns.

Electricity usage was minimised through a focused effort on power saving. Classes were more aware of their use of power and monitored the use of air conditioners, lights and fans.

Our staff profile

Expenditure on and teacher participation in professional development

The total funds expended on teacher professional development in 2011 was $28,875.

The major professional development initiatives are as follows:
- School Wide Positive Behaviour Support,
- Australian Literacy and Numeracy Foundation training in literacy,
- Yumi Deadly maths through QUT
- Profiling training
- RoleM (maths training through the Australian Catholic University)

The proportion of the teaching staff involved in professional development activities during 2011 was 100%.

Average staff attendance

For permanent and temporary staff and school leaders, the staff attendance rate was 95% in 2011.

Proportion of staff retained from the previous school year

From the end of the previous school year, 81% of staff was retained by the school for the entire 2011 school year.

School income broken down by funding source

School income broken down by funding source is available via the My School website at http://www.myschool.edu.au/. Upon request this can be obtained at the school office.

To access our income details, click on the My School link above. You will then be taken to the My School website with the following ‘Find a school’ text box.

#### Student Attendance Distribution

The proportions of students by attendance range.

![Attendance Rate Distribution](image)

#### Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

Rolls at our school are marked twice daily, morning and afternoon. Teachers are required to follow up absenteeism with a home visit or contact on third consecutive day of absence or for patterns of repeated absenteeism. Continued absence after this time results in an administration member making a home visit along with a CEC (Community Education Counselor). For students who come late continually, teachers and their IEAs (Indigenous Education Assistant) are required to make contact to highlight the importance of coming to school every day and on time.

The school along the Palm Island Community Company, the Palm Island Council, the Queensland Police Force and the Department of Communities, have made a joint effort to improve the attendance rate of all children to our school. A range of activities including the creation of an alternative program (Step Up) for disengaged youth have been undertaken in order to positively influence students to attend more regularly.

#### National Assessment Program – Literacy and Numeracy (NAPLAN) results – our reading, writing,
Performance of our students

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at [http://www.myschool.edu.au/](http://www.myschool.edu.au/).

To access our NAPLAN results, click on the My School link above. You will then be taken to the My School website with the following ‘Find a school’ text box.

![Find a school form](image)

Where it says ‘Search by school name’, type in the name of the school whose NAPLAN results you wish to view, and select <GO>.

Read and follow the instructions on the next screen; you will be asked to accept the Terms of Use and Privacy Policy before being able to access NAPLAN data.

If you are unable to access the internet, please contact the school for a paper copy of our school’s NAPLAN results.
Performance of our students

Achievement – Closing the Gap

In 2011 the enrolment was 276 of which 273 students are indigenous. There was a difference of 20% between the attendance rate of indigenous to non-indigenous students. The gap between indigenous attendance and the state attendance rate is also 20%. This is an improvement on 2010.

The apparent retention rate of indigenous students in 2011 sits just under 50%. The state percentage is just under 60%.

The gap in performance for our Year 3 students is closest in reading and widest for writing. Our students performance in numeracy has continued to improve over the past two years.

Our Year 3 scores have improved over the past two years in reading and writing as well.

Apparent retention rates Year 10 to Year 12.

Year 12 student enrolment as a percentage of the Year 10 student cohort. 25%

2011 School Annual Report

Queensland Government
Performance of our students

The school offered a Certificate 1 in Engineering.

Post-school destination information

At the time of publishing this School Annual Report, the results of the 2011 Year 12 post-school destinations survey, Next Step – Student Destination Report for the school were not available. Information about these post-school destinations of our students will be incorporated into this Report in September.

Early leavers information

The destinations of young people who left the school in Years 10, 11 and prior to completing Year 12.

The incidence of Early School leavers is an area of concern for Bwgcolman Community School. Disengagement from senior schooling is a systemic issue for our school. In 2011 we had many students elect to leave school before the end of the year. Many of these students have registered with Job Find while others seem to be 'lost' from the system. In following up these issues, it is clear that parents feel helpless and that they lack influence to change this worrying trend. A common sentiment is that the students get their own money now through CentreLink payments and are therefore in-charge of their own decisions or simply not in their care anymore. Several community-based task groups, that sit around the upcoming Capital Works project, are in operation to address this situation.
